

SPECIAL GREASES AND NICHE PRODUCTS

Product	Composition	Application
REXAL GP 25	Soft graphite grease	Lubrication of conveyor belts, predominantly used in sinter plants of the mining industry.
REXAL B 6	Soft “bentone” grease	General purpose gear grease; especially recommended for high temperature applications.
GRAPHITEX T 50	Black Graphite Dispersion, Water-based	Tyre release agent.
ISOLAT S 18	Hydrophobic Siloxane Emulsion	General purpose release agent for rubber (tyres), and poly-urethane components.
GRAPHITEX A 131	Aqueous Graphite Dispersion	Anode-stub coating for the production of virgin aluminium.
GRAPHITEX 50% <i>Aqueous dispersion.</i>	Highly concentrated. Aqueous dispersion of Colloidal graphite.	Fully stabilized graphite dispersion for a large variety of industrial applications.

PROWAX 140 G
PROWAX 140 T
PROWAX 500 G

Wax-based graphite
dispersions.

Impregnation of packings and gaskets.
